MICHELIN

A better way forward

MICHELIN X[®] WORKS[™] Z&D

BUSINESS EFFICIENCY

TRANSPORTATION WITH REDUCED RISKS

- Lower total cost of ownership thanks to exceptional longevity powered by **CARBION TECHNOLOGY**
- Up to 20% mileage potential compared to previous range*
- Robust sidewalls for optimised protection of the casing.
- Further optimize your tyre costs with **MICHELIN Multi-life management: regrooving and MICHELIN REMIX X[®] WORKS[™] D retreading**

* Previous range MICHELIN X[®] WORKS[™] XZY and XDY

SAFETY

DRIVE WITH CONFIDENCE

- New tread and casing designed to improve resistance to accidental damage
- Good road handling on roads
- Winter mobility supported by **3D SIPES**:
 - M+S on both Steer and Drive tyres.
 - 3PMSF marking on MICHELIN X[®] WORKS[™] D tyre.

ECOLOGY

A GREENER WAY TO TRANSPORT GOODS

- Low rolling resistance, thanks to **CARBION** and **POWERCOIL TECHNOLOGIES**, helping to reduce fuel consumption
- Optimised architecture thanks to **POWERCOIL TECHNOLOGY** to reduce tyre mass and consumption of raw materials
- Extend the life of your tyres through retreading with **MICHELIN REMIX** and save up to 50 kg of raw materials
- Retread acceptance rate of up to 85%**
- Regrooving enables the use of the tyre for longer in its most fuel efficient condition
- All MICHELIN X[®] WORKS[™] tyres are manufactured in ISO 14001 certified plants

**Retreading rate at MICHELIN REMIX factories for MICHELIN X[®] WORKS[™] in Europe in 2016

POWERCOIL

A new generation of robust steel casing cables which help to make each tyre lighter yet more robust, leading to better endurance and reduced rolling resistance.

3D SIPES

Improved grip and traction in all seasons throughout the life of the tyre.

CARBION

A material resulting from an innovative mixing process in which certain tread components are mixed when liquid creating a more uniform, material. This material increases mileage performance of the tyre and improves its rolling resistance to allow fuel savings.
